Grout Issue or NOT!!!!

Both these photos are showing an unsightly discharge of salts, free limes, Polymer migration and organics , Not from the grout joint! If you look closely their is a crack between the grout and the tile, there is moisture behind building pressure

Save time and Money

In today's tight economy rectifying a leaking balcony can be very expensive. The photo below shows many attempts to fix this issue using silicone plus re grouting to no avail. The thought of stripping off all the tiles and screed was daunting to the owners. The tilers rang me to arrange an on-site inspection to see what could be done.

Preparation

1. Re-instate all drummy tiles —Re grout
2. Strip out old silicone —Re grout
3. Camera probe waste piles—Check for cracks etc
4. Check Expansion joints are fit for purpose, if not replace. Check other areas for line cracking rectify and incorporate joints in these areas
5. Check Balustrade anchor points seal as required
6. Ensure balcony drains “Check Falls”
7. Clean entire balcony with powdered sugar soap. Remove all residue with clean water, allow to dry

Application

1. Apply Morgan's 2 pack Waterproof membrane to the entire area, incorporating bond breakers and Dec Web to all interfaces.
 2. Tiling adhesive Morgan's Powerflex Grey
 3. Incorporate Expansion joints
 4. Grout as required. “Light colour is best”
 5. Soft perimeter joints seal waste outlets and balustrade anchor points
 6. Batseal all grout joints
- NOTE:** Recommend light colour tiles with a slip resistance.

Contact Morgan's for specific use of these products..

Geoff's Speil

Dear VIP Tilers

I hope you all had a restful and enjoyable break over the Christmas period, from all accounts this year looks promising, fingers crossed. Morgan's are having a revamp of our packaging, bringing us up to date with the times, as you cast your eyes over this edition you will notice the colour matched buckets and lids. The product inside is still the same proven and reliable performer that you are used to.

The photo below is showing S12 "Sicily" architectural grout, which is in stock now at your supplier of Morgan's Products.

YES I am excited!!

The feedback from the tilers is very positive. We have invested a lot of research time and money into our architectural grout range over many years improving all aspects of its workability, durability and the aesthetic appeal.

Congratulations to Dennis Lomman VIP# 6 on winning the dinner for 2 at the Witches Cauldron Subiaco. We hope you enjoy your night out
Until Next time
Stay Safe

Cheers Geoff
